1. Header

```

<body>
  <div class="container" id="main">
    <div class="row">
      <h1 class="col-md-12 text-center" style="font-size: 46px;">
        <strong>
          <br>
          Human Age Estimation Through Panoramic Radiographs Images
          With Deep Neural Network</strong><br>
        </h1>

```

this div is about header web title form html

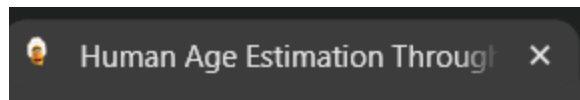

2. Icon website

```

</style>
<link rel="icon" type="image/png" href="./LegalDoc/LegalBERTth_new_2.png">

```

3. Syntax

a.
 = เว้นบรรทัด

i. = ตัวหนา

```

<body>
  <div class="container" id="main">
    <div class="row">
      <h1 class="col-md-12 text-center" style="font-size: 46px;">
        <strong>
          <br>
          Human Age Estimation Through Panoramic Radiographs Images
          With Deep Neural Network</strong><br>
        </h1>

        <!-- <center>
  <font style="color:#6c2c10"><strong>Wanita Somdej</strong></font>
</a>

```

5.
